Lufkin Newsprint

Mill Increases

Production 5 Times

Quoted

There once was a fisher named Fischer, who was fishing for fish in a fissure, but the fish with a grin, pulled the fisherman in, now they're fishing the fissure for Fischer.

On March 30 the board of directors of Southland Paper Mills, Inc., Lufkin, Texas, voted to authorize installation of a third newsprint machine contingent on obtaining sales contracts to assure moving the mill's added annual production.

On June 14 the mill announced that the necessary contracts had been obtained and the third machine will be installed.

So here is the history to date of the first mill in the world to turn Southern pine into the coarse white paper known as newsprint, which formerly was obtained only from northern spruce and manufactured chiefly in Canada and Scandinavia.

Started operations in 1940 with one machine and a base annual production of 50,000 tons.

Added a second machine and an integrated chemical pulp plant, giving the mill an actual production in 1953 of 132,950 tons.

Trade reports say the third machine alone will add 75,000 tons a year, and the mill's three-machine setup is estimated to give Lufkin an actual output of 225,000 tons — nearly five times what it started with only 14 years ago.

I recite these figures because, (1) it is our community duty to keep significant Southern industrial trends constantly before the local public, and (2) the newsprint industry has an almost unlimited future in the South — with its great areas of pulpwood production, on which pine reaches market size in a fraction of the time required by its competitor, northern spruce.

To give you an idea how the market for newsprint is expanding:

T. A. Corcoran, chairman of the newsprint committee of the Southern Newspaper Publishers Association, of which The Star is a member, reports that the average annual increase in consumption of newsprint since the beginning of World War II has been 183,000 tons. That's more than two-thirds the total enhanced capacity of the Lufkin mill — and this increased demand has been registered every year.

As for the quality of Southern-made newsprint, the appearance of your daily paper testifies to it. With the exception of a couple of carloads of Canadian and overseas newsprint during the scarcity at the end of the war The Star has used Lufkin paper exclusively, having signed a charter contract when the mill began operations in the spring of 1940.

Lufkin was the first pine mill. A second followed at Coosa Pines, Ala.; and now a third one, the Bowaters property, is going into production east of Chattanooga, Tenn. — this last representing a 60-million-dollar investment. It has been a story of uniformly successful industrial and financial adventure — and this is only the beginning, for the South.

**Republican Sees Mistakes as Deliberate**

WASHINGTON (AP) Rep. Clancy (R-Mich.) said today he is convinced some members of the Eisenhower administration make "mistakes deliberately to start trouble between Congress and the White House."

Clancy called for a "cleanup" in executive agencies as a result of confusion earlier this week about the administration's attitude toward a government pension for Alger Hiss.

The Michigan Republican told newsmen they were "fully justified" in interpreting the publicly-stated position of two top federal agencies to mean the administration opposed legislation to deny Hiss and other convicted felons the right to collect federal retirement pay.

Eisenhower's press secretary, James C. Hagerty, said the exact opposite was true.

Hiss is a former ranking official of the State Department who has been convicted of swearing falsely when he said he never passed secrets to a Communist spy ring. Under existing law, he is eligible for a \$700-a-year federal pension when he reaches the age of 62.

The House Civil Service Committee is holding hearings on bills by Clancy and Rep. St. George (R-N.Y.) that would specifically deny a pension to Hiss.

News stories on Tuesday reported the Civil Service Commission and the Budget Bureau took the position the government must go through with retirement pay to the pension of the Statue of Liberty as a tour of the growing popularity of the Statue of Liberty as a tourist attraction.

The views of these agencies were sent to the House committee.

## Girl 11, Drowns in Municipal Swimming Pool

Margaret Yvonne Handley, aged 11, daughter of Mr. and Mrs. William Bertie Handley of 1019 West Fourth Street drowned Wednesday afternoon in Hope's municipal swimming pool at Fair park. It was the first tragedy in the local pool.

She was brought out of the deep water of the pool at approximately 3:45 by a life guard and was given artificial respiration until a Hope Fire Department truck arrived within approximately 10 minutes.

A resuscitator was used for more than three hours. After about two hours she was taken to a local hospital where physicians pronounced her dead. Doctors Lile and Lafferty worked with the body during the three hours.

She had moved to Hope with her family from Texarkana shortly after Christmas. Mr. Handley is employed by the Hunter Saw Co.

A coroner's ruling probably will be forthcoming late today. The body was taken to Little Rock for an examination.

Besides her parents she is survived by two sisters, Phyllis Ann, Kathryn, two brothers, Donald Joe and Henry Wallace, the latter in the armed forces. Funeral arrangements are incomplete but burial will be in County Line Cemetery, five miles north of Nashville.

## U.S. Cool to Eden's Foreign Policy Blast

By JOHN M. HIGHTOWER  
WASHINGTON (UPI) — United States today cold-shouldered Churchill's government's proposal on the eve of Churchill-Eisenhower talks here, for a Locarno-type system of security guarantees for Red-threatened Southeast Asia.

Under such a system the United States and Communist China presumably would be among the powers guaranteeing some kind of Southeast Asian settlement. War in Indochina according to the view of officials here probably would be "neutralized."

In response to a request for comment on the proposal and other aspects of a foreign policy speech in Parliament yesterday by Foreign Secretary Eden, U.S. State Department spokesman said:

"We were not informed of the content of Mr. Eden's speech in advance of its delivery and therefore have no comment to make." The emphasis on not being informed, and the failure to make any softening comment, gave a strong indication of official United States reaction, which authorities would amplify only in private comment.

In fact, the idea of non-aggression treaties between the two world wars is well known. American officials as having no value whatever as applied to Southeast Asia.

## French Mop Up Enemy Forces

By LOUIS GUILBERT  
HANOI, Indochina (UPI) French troops moved up Communist-held Indochina yesterday to quickly repel an attack on a ring of concrete and brick block houses guarding the Red River delta's defense perimeter.

The mopping-up of rebels began took place about 30 miles north west of Hanoi following fierce fighting in the Son Tay region.

A French high command spokesman said the mop-up was ordered to thwart a rebel bid to seize assault points on northwestern approaches to the delta.

The French attacks had a calming effect on the population of Hanoi, which became jittery following the fall of the isolated French bastion of Dien Bien Phu to Red forces of Gen. Vo Nguyen Giap.

## GOPs Warned Trade Act Is Endangered

By JOE HALL  
WASHINGTON (UPI) Republican Senate leaders passed word today that adoption of a Democratic-sponsored extension of the Reciprocal Trade Act probably would kill the 20-year protest.

Majority Leader Knowland, California, and Chairman Millikin (R-Colo.) of the tariff-handling Finance Committee it was learned were using this argument to try

to hold votes in line for a simple one-year extension bill already passed by the House.

They argued this extension will give powers to the President to put tariffs on imports.

Previously requested by President Eisenhower and now provided for in the Democrats' substitute would be like waving a red flag in the face of key House Republicans who favor higher tariffs.

Many House GOP leaders such as Rep. Daniel A. Rostenkowski, were reluctant to go along with a one-year extension without new restrictions on imports, heads the Ways and Means Committee, which has authority over tariff legislation in the House.

After his three-year proposal ran into difficulties there, Eisenhower last month let it be known he would go along with a one-year extension but did not rule out dropping his interest in the program.

### New McCarthy Man Lacks CIA Approval

NEW YORK (UPI) Newspapers reported today that Sen. Joseph R. McCarthy (R-Wis.) has assigned Donald Surine to a preliminary investigation of the Central Intelligence Agency and they said Surine does not have federal security clearance.

Surine told a reporter in Washington a week ago that he had security clearance.

Asked about the story that he had been assigned by McCarthy to investigate the CIA Surine said in Washington: "I don't know anything about it." He declined to draw into a discussion.

Washington dispatches to the New York Times and New York Herald Tribune attributed the assignment and reported lack of security clearance of Surine to informed sources.

Sen. Hubert H. Humphrey (D-Minn.) tried to get the committee on record in favor of a two-year extension of 90 percent supports, but his motion was voted down 9 to 6.

The proposed to switch to flexible price supports on basic crops next year was the heart of the administration's farm program.

The House Agriculture committee also rejected it, voting 21 to 8 early this month to retain the 90 percent supports for one more year.

The issue may be a big one in this fall's congressional campaigns, particularly in the Middle West.

Chairman George D. Aiken (R-Vt.) predicted the senate in any ultimate showdown, will reverse the committee action today and sustain the administration viewpoint.

Young told newsmen after his meeting he thinks there is a 50-50 chance the bill will pass.

He is the only one of the 50 senators supporting the bill calling for continuation of 90 percent supports and he believes the chances are about the same for its surviving a presidential veto.

The committee vote on Young's motion broke down this way:

For Republicans (3) Yong Thye, Mundt, Democrats (5) Allen J. Ellender (La.), Olin D. Johnston (S.C.), James O. Eastland (Miss.), Earle C. Clements (Ky.) and Humphrey.

Against Republicans (5) Aiken, Bourke B. Hickenlooper (Iowa), John J. Williams (Del.), Schaeppi, and Herman Welker (Idaho).

Democrats (2) Clinton P. Anderson (N.M.) and Spessard L. Holland (Fla.).

## That Haddix Is Hottest Hurler Today

United Press Sports Writer

Harvey Haddix ranked as the hottest pitcher in the majors today and Rip Repulski as the hottest hitter all of which keeps Manager Eddie Stanky wondering how come his Cardinals are only in a luke-warm fifth place tie.

Haddix and Repulski each of whom was instrumental in the Cards' 7-1 victory over the Pirates last night, are in the midst of two separate red-hot streaks.

Last night's triumph over Pittsburgh was the 10th in a row for the 28-year-old left-hander. Haddix and his 12th triumph of the season. Unbeaten since April 29 when the Dodgers nipped him 4-3, Haddix had hurled 37 scoreless innings.

Only 9-13 innings short of Carl

Hubbell's National League record until the Bucs broke through with a run in the sixth last night on Dick Cole's triple and Preston Hodges' single.

Repulski's hitting has been al-

most as spectacular as Haddix'

Repulski collected three of the Cards' 10 hits last night including his 11th homer with one on in the ninth. It marked the ninth straight game since June 13 that he collected two or more hits. During that stretch Rip has rapped out 20 hits in 40 times up for a sizzling .500 clip.

No wonder Stanky keeps scratching his head in bewilderment when he views those accomplishments and realizes that the Cards are merely tied with the Reds who lost to Brooklyn 6-3 for fifth place.

Doh Newcombe set down Cincinnati on six hits in pitching four hours and 58 minutes and set an American League record. The longest previous game was a 4:40

Home runs by Joe Adcock, Del Crandall and Andy Pafko contributed to the Giants' downfall although relief Pitcher Dave Jolly merited equal credit for snuffing out a ninth inning threat with no hit and the bases full. Jim Wilson was the winner in a game which saw Willie Mays hit his 22nd homer for the Giants.

Southpaw Curt Simmons let the Cubs down on seven hits to hurl the Phillies to a 5-3 victory and even his season's record at six victories and six defeats. Randy Jackson homered for Chicago.

The Orioles pushed over a run in the 17th inning to defeat the Red Sox in a game which consumed four hours and 58 minutes and set an American League record. The longest previous game was a 4:40

injection.

Hospital attendants said they were uncertain whether the snake was a copperhead or a cotton-mouth.

Clancy has ferried all types of people out to the statue from children and senators to governors and movie stars, from Faye Emerson to United Nations officials.

"But immigrants seem to get the biggest thrill," he said. "Many saw the statue from the deck of a ship when they first came to this country years ago, and they have a desire to see what it looks like real close. Sometimes they cry. It stirs up old memories."

Captain Clancy says his nine daily trips never get monotonous, and he doesn't feel rut-bound.

"You're too busy," he said. "This is the busiest harbor in the world, and you're crossing all the big liners going in and out. You don't have time to think of anything else."

No impish Irish impulse to bypass the Statue of Liberty and chug his boatload of sightseers on down to Florida ever tempts the stout stern mind of Clancy. Of if it does, he won't admit it.

"Anyway," he said firmly "I've already seen Florida."

## Workouts Seen for Top U. S. Tennis Stars

WIMBLEDON Eng. (UP)—Tony Trabert and Maureen Connolly America's co-favorites to win the two singles titles in the tradition-steeped Wimbledon tennis championships were expected to have only routine workouts today in their third-round matches. Trabert, U. S. champion from Cincinnati, O., who is top-seeded in the men's division as he pursues his outstanding career to become the world's outstanding player, was matched against Britain's Bobby Wilson in a center court match. Miss Connolly, U. S. women's champion from San Diego, Calif., who is top-seeded in her quest for her third straight title in this tournament, faced Eddy Buding of Argentina in a side-court match.

Other American stars who have advanced this far were similar favorites although two of the male Yanks were matched against top Davis Cup players of other countries. Sixty-seeded Art Larsen former U. S. champion from San Leandro, Calif., faced Philippe Washer, ace of Belgium's Davis Cup team and seventh-seeded Budgie Patty, former Wimbledon champion from Los Angeles, met Narash Kumar member of the Indian Davis Cup team.

Vic Seikas of Philadelphia, the defending champion who is fourth-seeded, clashed with Mark O'Way of New Zealand while 12th-seeded

Garnet Mulloy of Miami, Fla., met Peter Molley of Australia. The top U. S. men's doubles team of Seikas and Trabert which is seeded second behind the Australian team of Rex Hawig and Mervyn Rose was matched against Herb Flatt of Beverly Hills, Calif., and Larsen on the center court.

# MILY

PHILLIPS ROGERS  
CONTRIBUTED BY PHILLIPS ROGERS

Named Town  
Natives of the Lake Nyassa region of Africa use a bread the sole ingredient of which consists of small brownish flies, known as kififi. They capture the flies by running into the thick swarms with baskets, and then knead the flies into the bread "dough."

It was this individual who taught him how to wrestle. He had always been strong, Milt said, from trying that cow and bull around but it was the diet that had made him the strongest man in the world. It didn't sound concealed, the way it does when I tell you. All he did was say what he believed.

Don't think that I gave in to dieting right away. For one thing, my mother had never been cooperative about me wanting to wrestle and I didn't know how she would take me eating all that raw stuff. When dealing with my family, I have learned that it is better to be diplomatic, because you hardly ever know how they are going to take even the most trivial things, like the time when I got the job on the oil tanker and what a rum-pus they kicked up, resulting in that I didn't go.

But that is neither here nor there. I decided to give only the oatmeal to Ma, and I'd put in the nuts and the Greek raisins when she wasn't looking. I could eat my bananas and apples at the supermarket and smuggle a head of lettuce up to my room. Ma was suspicious from the first.

Deaths from the plague in India were reduced from 41,748 in 1944 to 1,007 in 1952, and officials believe there has been a further reduction in subsequent years, although the figures have not been tabulated.

**Biff Rescues the Heroine**

The High School seniors had their annual play last week and everything went fine — almost! Maybe you heard ...

Ginger Fisher "froze" in a tense moment. When she couldn't even hear Biff Johnson, the English teacher, coaching her, Ginger bolted. Then Dolly Perkins, her understudy got stage fright, too, and made her "exit."

In desperation Biff came out and finished the scene — as the heroine! Ginger was fine after that, but it sure was lucky Biff knew all the parts.
